

## **RayCryl 2007 Technical Bulletin**

### **All-acrylic Universal Primer**

RayCryl 2007 is an all-acrylic emulsion designed for interior and exterior primers. It has excellent adhesion to a wide range of substrates, including aged alkyds. Coatings formulated with RayCryl 2007 have outstanding household stain blocking characteristics.

#### **Key Features**

- Excellent household stain blocking
- Outstanding adhesion to a wide range of substrates
- Very good water resistance and enamel holdout
- Ability to enhance efflorescence resistance

#### **RayCryl 2007 Typical Physical Properties\***

Polymer type	Acrylic emulsion polymer
Weight solids	46%
Viscosity (Brookfield Model RVT)	570 cps, #3/100 rpm
pH	8.8
Tg (MDSC)	15°C
MFFT (ASTM D-2354)	<0°C
Particle size (Mean)	0.08 microns
Surfactant charge	Anionic
Weight per gallon	8.7 lbs/gal
Freeze thaw stability	Do Not Freeze

*\* These properties are typical, but do not constitute specifications.*

---

For more than 45 years, Specialty Polymers has been developing state of the art resins for the paint, coatings and adhesive industries. With more than 300 products to choose from, Specialty Polymers has the right polymer to meet your needs.

#### **IMPORTANT INFORMATION**

If any product is defective in workmanship or materials, Specialty Polymers, Inc. will replace the product. The information contained in this Technical Bulletin is intended to be a guideline. It is offered in good faith, but without guarantee. We recommend users of the product perform their own testing to determine the suitability of the product in their application.
